Re: Monitored Natural Attenuation (MNA) Work Plan Revision 1, dated June 30, 2005  
Solid Waste Management Unit (SWMU) 2 - Southside Landfill  
Naval Support Activity Mid-South (NSA), Millington, TN  
Tennessee Hazardous Waste Permit Number: TNHW-094  
EPA ID. Number: TN2 17 002 2600  
Approval

Dear Sir:

The Division of Solid Waste Management (Division) has reviewed the MNA Work Plan Revision 1 prepared by EnSafe Inc. The original work plan, dated December 20, 2004, was submitted as a result of a Corrective Measures Study (CMS) that recommended MNA as the final remedy for the Southside Landfill. The Division determined that review and evaluation of groundwater data should be performed annually instead of every five years as the work plan proposed. The Division in a letter dated June 14, 2005, granted conditional approval. NSA has made the required change in the work plan, therefore the Division considers the MNA Work Plan Revision 1 approved.

If there are any questions or comments regarding this review, please contact me at (615) 532-0864 or e-mail at roger.donovan@state.tn.us.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger Donovan".
